This clinic is taught by Theresa Denham. Theresa has worked in the equine industry and has been breeding and showing horses since 1971. She has developed a strong understanding of the psychology of horses. This class will work on understanding the young horse and teaching skills to the handler to encourage strong communication between horse and owner. We will identify issues prior to them becoming major issues, and we will learn to curb inappropriate behavior of the young horse.

Please have your horse immunized against Flu, Rhino, and Strangles within the past 6 months and at least two week prior to entry to our facility.
